- (2) Press  to move the cursor to .
- (3) Press  TURN PAGER OFF? is displayed.
- (4) Press  again to turn the pager off.

Your pager is now 'off' and the screen is blank.

## 2. Getting Started

### 2.1 Using the Function Menu

The Function menu provides access to the many features of your pager through the use of symbols and prompts.

- (1) Press **▲** to display the Function menu. When the Function menu is initially displayed it flashes to indicate the location of the cursor.

*Example of Fully Displayed Function Menu*

- (2) Press **◀** or **▶** to move the cursor within the Function menu. As you move through the Function menu, the pager function symbols flash to indicate the present location of the cursor. To exit from the Function menu without making any changes press **■**.

**Note:** Some symbols may not display on your pager, depending upon your pager's features and whether it has messages.

## 2.2 Message-Status Screen

The Message-status screen shows the current status of your messages. For example, unread messages are indicated by a flashing **▲** symbol.

The Message-status screen also displays the time and date and any activated pager settings. The message-status screen can be accessed by pressing **◀** or **▶** from the standby screen.

*Example of the Message-Status Screen*

## 2.3 Receiving/Reading Personal Messages

Your pager can receive up to 19 personal messages. When a message is received, your pager alerts according to the current alert setting (audible, vibrate, or no message alert). A new message is indicated by a flashing **▲** symbol. When a message is selected the symbol changes to **■**.

### 2.3.1 Reading an Incoming Message

- (1) Press any button to stop the alert.
- (2) Press **■** to display your message.

A flashing **↓** in the right corner of the screen indicates the message is continued on an additional screen (s).

- (3) Press **■** to exit.

### 2.3.2 Reading a Stored Message

- (1) From the Message-status screen press **◀** or **▶** to move the cursor to the message you want to read.

(2) Press **■** to read the message.

### 2.3.3 Message Reading Features

Press **◀** or **▶** while reading a message to read the previous or next message.

**Note:** When an unread message exists, your pager gives a periodic reminder alert until all unread messages are read. A flashing **⚙** on the Standby screen indicates that you have unread messages.

### 2.3.4 Message Preview

This feature allows you to scan the first line of your messages.

(1) Press **■**.

(2) Use the **◀** or **▶** buttons to move the cursor through your messages.

**Note:** Previewing an unread message does not remove the unread message status from the message.

## 2.4 Display Zoom

When this feature is enabled, the standard 4-line display is converted to a 2-line display. The characters are enlarged vertically. Increasing message readability.

### 2.4.1 To Enable Display Zoom

(1) From the Function menu, press **◀** to move the cursor to **⌕** (zoom 2) or **⌕** (zoom 3) or **⌕** (zoom 1)
