

Motorola Advisor Gold Features

Features: Benefits

- Display Lines: 4** Easy to read entire text messages at a single glance.
- OPTIMAX™ Holographic Display** The exclusive holographic display provides exceptional contrast, making it easier than ever to read your messages.
- Total Character Memory: Up to 30,000** Enough room to store a book of information.
- Message Slots: 34** Plenty of memory to receive and store all your important messages and up to 15 different information services.
- Information Service Capability** Allows user to receive information services such as sports, weather, headline news, stocks.
- Notebook Entries** Use the notebook entries to store any important messages for future reference. This could include messages containing names and phone numbers of friends, family, or business associates.
- Shows Time and Date** Pager provides added convenience since it also acts as a watch and calendar.
- Message Time stamping: Date and Time** Helps you prioritize your messages by knowing exactly what date and time they were received.
- Message Alarm** No need to ever forget important dates in the future...like that special someone's birthday. Send yourself a message and set your message alarm to remind you of that important date in the future.
- Programmable On/Off** Automatically turns your pager on and off at your selected times, saving battery life.
- Message Preview** Allows you to view the first line of each message for quick reference.
- User Selectable Alerts** Choose your favorite, or change your alert so you can differentiate your pager from others.
- Vibrating Alert** You can be alerted of incoming messages in a noisy environment or discreetly alerted when you do not want to disturb those around you with a loud alert.
- Selective Erase** Allows you to erase messages that are no longer needed, thereby keeping your pager's memory organized.
- Erase All** Keep your memory slots organized by easily erasing all read, unprotected messages when you no longer need to save them.
- Memory Retention** Don't accidentally erase important messages by turning off your pager - the messages are retained when the pager is off.
- Battery Backup** Retains messages in memory while replacing the battery.
- Battery Gauge** Monitors your pager's energy level, so it is easy to see at a glance.

the remaining life of your battery.

Low Battery Indicator Notifies you that your battery is getting low and needs to be replaced - helping to ensure that you don't miss any messages.

Reminder Alert A short friendly alert reminds you when you have not reviewed your messages.

Duplicate Message Duplicate Messages are stored in the same memory slot as original message - saving memory space for new messages. The latest timestamp is used and a Duplicate prompt is displayed when the message is read.

Backlit Display Allows you to easily read your messages at night or in a low light environment.

Battery: 1 AA Replacements readily available.
